ABOUT

A junior full stack software developer and a freelance editor with a strong talent for thinking of creative solutions to technical problems. I am passionate about creating high-quality, scalable web applications and engaging video/television content. I aim to further my skills as a software developer.

WORK EXPERIENCE

DIGITAL DAILIES TECH & COLORIST - FREELANCE

SIM International | Sep 2014 - Current

- Act as liaison between production and editorial teams
- Offload and oversee quality control of media cards
- Organize media and metadata
- Color-correct and add grades to raw footage
- Transcode footage into uniform codecs for NLE ingestion
- Retime off-speed footage for correct playback
- Render deliverables based on tech specs from client
- Archive dailies and camera originals to LTO tapes
- Train and supervise teams when working on remote jobs

VFX EDITOR - FREELANCE

Crafty Apes, LLC | Feb 2017 - Oct 2017

- Act as liaison between editorial and VFX artists
- Set up initial versions and input in version control software
- Cross-reference client's notes with artists' versions
- QC deliverables for continuity and technical accuracy

ASSISTANT EDITOR - FREELANCE

Moonshine | Dec 2016 - Feb 2017

- Prepare footage for editing by organizing based on editors' preferences and producer specifications
- Transcode footage into uniform codecs for NLE ingestion
- Retime off-speed footage for correct playback
- Create rough edits based on script for polishing
